

Your partner in sustainable risk control

ABC Induction Program

**PROVIDING THE MISSING PIECE
FOR TRUE
SYNERGY IN BUSINESS**

Introducing the GSRC Management **ADHERENCE BEHAVIOUR CAUTION** (ABC) Safety Induction Program!

At GSRC, safety is our top priority. That's why we've created the ABC Safety Induction Program to ensure that your employees are equipped with the knowledge and skills they need to stay safe on the job.

The ABC Safety Induction Program is a comprehensive safety training program designed to educate employees on the importance of adherence, behavior, and caution in the workplace. This program will help you identify and prevent potential hazards, as well as teach you how to respond in the event of an emergency.

Our program is delivered through a combination of classroom sessions and hands-on training, so you'll have plenty of opportunities to learn and practice what you've learned. We cover a wide range of safety topics, including:

- Hazard identification and risk assessment
- Personal protective equipment (PPE)
- Safe work practices
- Emergency procedures
- Workplace violence prevention
- Electrical safety
- Fire safety

By participating in the ABC Safety Induction Program, you'll not only be keeping yourself safe, but you'll also be contributing to a safer work environment for everyone. You'll also gain valuable knowledge and skills that can be applied not just at work, but in your personal life as well.

At GSRC, we believe that safety is everyone's responsibility. We encourage all employees to take an active role in promoting safety and to report any safety concerns to their supervisor or the safety committee.
