

ASSESS A SITE AND PREPARE A FALL PROTECTION PLAN

COURSE ALIGNED TO
UNIT STANDARD 229994

TRAINING TO IMPROVE YOUR PERFORMANCE

This comprehensive training program is designed to equip you with the knowledge and skills necessary to assess a worksite for fall hazards and develop a fall protection plan in accordance with Unit Standard 229994.

Falls from heights are one of the leading causes of workplace injuries and fatalities, making it essential that all workers understand the importance of fall protection. The **ASSESS A SITE AND PREPARE A FALL PROTECTION PLAN** course is designed to provide you with the knowledge and skills to identify and assess fall hazards, and to develop effective fall protection plans that comply with industry regulations and standards.

Through a combination of classroom instruction, hands-on exercises, and practical application, you'll learn how to:

- Identify and assess fall hazards
- Understand the legal and regulatory requirements for fall protection
- Develop a fall protection plan that is compliant with Unit Standard 229994
- Implement fall protection systems and equipment
- Conduct regular inspections and maintenance of fall protection systems

Our experienced trainers will guide you through the course, providing practical insights and real-world examples to help you develop the skills and confidence needed to keep yourself and others safe.

Upon successful completion of the course, you'll receive a certificate of completion that demonstrates your knowledge and competence in assessing a worksite for fall hazards and developing a fall protection plan in accordance with Unit Standard 229994.

Investing in this training not only ensures that you're complying with regulatory standards, but also helps to reduce the risk of workplace injuries and fatalities. With the **ASSESS A SITE AND PREPARE A FALL PROTECTION PLAN** course, you'll gain the knowledge and skills to keep yourself and your colleague's safe on the job.

Thank you for choosing GSRC Management as your training provider. We look forward to working with you and helping you achieve your safety goals.
