

ISO 45001 SYSTEM IMPLEMENTATION TRAINING COURSE PROPOSAL

Essential Skills for a Safe Workplace

GSRC MANAGEMENT ISO 45001 SYSTEM IMPLEMENTATION COURSE

Looking to implement an effective occupational health and safety management system? Look no further than GSRC Management's ISO 45001 System Implementation Course.

WHY CHOOSE OUR COURSE?

Our course is the best in South Africa for several reasons:

1. Experience: With over 19 years of experience in implementing and managing ISO systems, safety systems and behavioural systems, we have the knowledge and expertise to help you implement an effective occupational health and safety management system.
2. Customization: Our course is designed to be customized to your organization's specific needs and requirements, ensuring that you get the most out of the course.
3. Interactive training methods: We understand that traditional Power Point training methods are not effective at improving safety performance, so we've designed our course to be interactive and engaging, with practical exercises to ensure learning and behavioural change.
4. Cost-conscious: We are price conscious and will beat any written quotes.

COURSE CONTENT:

Our ISO 45001 System Implementation Course covers the following topics:

1. Overview of the ISO 45001 standard
2. Planning the OH&S management system
3. Implementing the OH&S management system
4. Monitoring, measurement, analysis and evaluation
5. Continual improvement
6. Third Party Accreditation Preparation and Audit
7. Closing of Findings

Our course is designed for those responsible for implementing an OH&S management system, including management representatives, safety officers, and quality managers.
