

INTERNAL AUDITING COURSE PROPOSAL

Essential Skills for a Safe Workplace

Looking to enhance your auditing skills and knowledge? Look no further than GSRC Management's Internal Auditing Course.

Our course is widely regarded as the best internal auditing course in South Africa, and for good reason. Here's what sets our course apart:

1. **Comprehensive Curriculum:** Our course covers all aspects of internal auditing, from risk assessment to audit planning and reporting. We also offer in-depth training on ISO standards, so you can be sure you're up-to-date on the latest industry best practices.
2. **Expert Instructors:** Our instructors are highly experienced and knowledgeable in the field of internal auditing. They bring real-world experience to the classroom, giving you practical insights and tips that you can apply to your own auditing work.
3. **Interactive Learning:** Our course is designed to be engaging and interactive, with plenty of opportunities for group discussions, case studies, and hands-on exercises. This means you'll be able to apply what you learn in class to real-world scenarios.
4. **Cost-Conscious:** We understand that training can be expensive, which is why we're committed to keeping our prices competitive. We'll beat any written quote from our competitors, without sacrificing the quality of our training.

Course Content

1. Overview of internal auditing and its role in organizational success
2. The auditing process and how to plan an audit
